

# WHARTON ARMS

# POST OFFICE 129

# THE HILLS

ACCESS TO PROPERTY REQUIRED

### Skelton High Street - Outline Proposals:

1. Remove the existing flags to the High Street and replace with new paving flags. Introduce new concrete tactile paving to crossing points and steps. Existing kerbs and drainage to be retained.
2. Retain existing road layout
3. Improve car parking - demarcate car parking bays with lining to both sides of the road for easier parking, total area remains the same as at present, although parking use may become more efficient
4. Create an attractive seating area at the junction of the High Street / The Hills. Opportunities to continue Community / local schools involvement by introducing bespoke seating and mosaic columns to the 'Corner Garden'.
5. Introduce tree planting to the western end of the street to soften appearance of High Street and frame views to church. Pyrus 'Chanticleer' proposed for upright habit and limited eventual height.
6. Introduce new street furniture i.e. seats, bollards, bins and signs which are appropriate to the historic setting and will match with existing. Salvage recently installed seating.
7. Introduce information signs about the heritage of Skelton High Street.
8. Setting for the Community Mural (Please see separate project proposal)

- KEY**
- Existing doorways into buildings
- BOUNDARIES**
- Existing stone wall to be retained
