

glazing

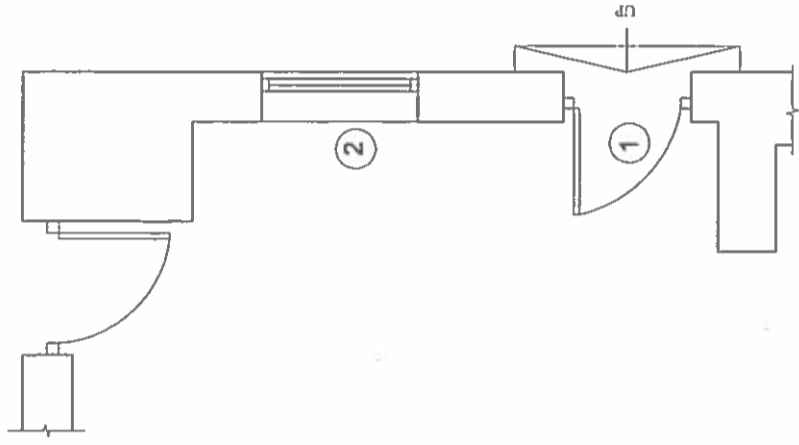

NOTES
 1. All work to be done in accordance with the specifications and drawings.
 2. All materials to be used shall be of the highest quality and shall be approved by the Architect.
 3. The Contractor shall be responsible for obtaining all necessary permits and approvals.

PROPOSED WORKS NOTES

- ① New composite shop front door to be fitted with double glazing units. The door will have a letter plate in the mid-rail. Allow for fan-light above the door as shown.
- ② Reinstate existing refurbished linoleum windows. Allow for making good all round.
- ③ New aluminum rainwater down pipes and gutters to be installed as shown.
